

Touch screen

Getting used to the touch screen is the most important part of using a tablet. It takes time to get used to them. However there are some app which can help you get used to moving your finger around the screen such as the one below.

Finger touch
screen training
or Fspeed

There are five different things you can do with a touch screen depending on what you want to do. These are:

- Tap—this is like pressing a button
- Tap & hold—Like pressing and holding a button down
- Moving you finger—when you put you finger on the screen at one point and then move it to another without taking your finger off the screen.
- Zoom in—to zoom in you put you 2nd finger and thumb on the screen and then drag them apart.
- Zoom out—To zoom out you put your 2nd finger and thumb on the screen apart from each other then move them together.

Exercise

- The exercise I want you to have a go at to get used to the touch screen is to download these apps below and spend 5-10 mins having a go at them.
- Visit google maps—search for Barmby moor or a place of your choice using the search bar in top left and then zoom in and have a look around.
- Remove Three apps from you home screen by pressing & holding and then dragging the app to remove.
- Add three apps to your hold screen by going to apps, clicking and holding then dragging them to the home screen.
